

As part of the parallel activities of the COP22, the Women's Forum of Africa Post 2015, the Socialist International Women, and the Jossour Forum of Moroccan Women have jointly organised a conference on the theme "Gender Climate and Sustainable Development".

This conference will be an opportunity to open the debate on the challenges faced by women, present successful experiences and develop partnerships for other concrete actions to help women achieve the goals of fighting climate change by adopting a plan of action in terms of mitigation, adaptation and financing.

We are also present in the Green Zone in space "WE ACT FOR AFRICA" at stand 207, from 7 to 18 November 2016.
